Package: demoShiny (via r-universe)

September 8, 2024

Title Runs a 'Shiny' App as Demo or Lists All Demo 'Shiny' Apps

Version 0.2

Description Mimics the demo functionality for 'Shiny' apps in a
package. Apps stored to the package subdirectory 'inst/shiny'
can be called by demoShiny(topic).

Depends shiny

demoShiny	*demoShiny*

Description

Runs a Shiny app as demo or shows an overview of all Shiny demo apps related to a `topic`. If more
than one app relates to `topic` a list of apps is returned otherwise the app is run. For more details
see `vignettes('demoShiny')`.

1

Usage

```
demoShiny(topic, verbose = FALSE)
```

Arguments

topic   character: the topic which should be demonstrated

verbose   logical: should file locations printed, too (default: FALSE)

Value

invisibly a data frame with topic, info and file location

Examples

```
# collect all apps of loaded packages
demoShiny()
demoShiny(verbose=TRUE)
# collect all apps of the package demoShiny or with the name demoShiny
demoShiny('demoShiny')
if(interactive()) {
  demoShiny('demoShiny::hist')
  demoShiny('silhouette')
  # use partial matching
  demoShiny('silh')
}
```
